To update Firefox on Apple Device:

Firefox should automatically update based upon your Apple App Store settings. You can check if there's a new version available:

6. On your Apple device, open the app store.

7. At the top right, tap **Profile** .

8. Scroll down to **Available Updates**, and search for **Firefox**.

9. If Firefox is listed, tap **Update** to install.

10. If asked, enter your Apple ID password. The updates will download and install.

Safari

Qn: How to download and install Safari on my desktop or mobile device?

For Mac computers, the Safari web browser is installed and updated as part of macOS.

For PCs, Safari updates are no longer available. You may like to access NSA Hybrid Roadshow with another browser.

Qn: How do I update my Safari to the latest version?

To update Safari on your desktop:

To keep Safari up to date for the version of macOS you're using, install the latest macOS updates.

The most recent version of macOS includes the most recent version of Safari. For some earlier versions of macOS, Safari might also be available separately from the Updates tab of the App Store.

To update Safari on Apple Device:

Safari updates when you update the iOS on your phone. If your phone is up to date, you will have the current version of Safari. You can check the version of iOS installed via Settings > General > About > Version. If it is not up to date, Settings > General > Software Update.

Microsoft Edge

Qn: How to download and install Microsoft Edge on my desktop or mobile device?

Download here: https://www.microsoft.com/en-us/edge

Qn: How do I update my Microsoft Edge browser to the latest version?

To update the old Microsoft Edge to the new Microsoft Edge :

If you haven't updated your Windows 10 PC to the new Microsoft Edge yet, you can download it from Microsoft's website. Install it on your PC and it will replace the old Edge browser. If you want the old Edge browser back, you can uninstall the new Edge like you'd uninstall any other application.

To update the new Microsoft Edge :

1. On **your** computer, open **Microsoft Edge**.

2. At **the** top right, click More ⋯ .

3. Click **Update Microsoft Edge**. Important: If you can't find this button, you're on **the** latest version.

4. Click **Help & Feedback** and click **About Microsoft Edge**.

5. Edge will check for any available updates and automatically install any available updates.
